Ravin Bhakta

Full-Stack Software Engineer | JavaScript, TypeScript, Node.js, React, Rust | AWS | Docker | Supabase | Agile | Scalable Web Apps | API Development | Cross-Team Collaboration | SAP
Fremont, California, United States

Summary

I'm a mid-level software engineer experienced in building scalable applications using Node.js, Java Spring Boot, PHP Laravel, and Ruby on Rails. I work across cloud (AWS), containerization (Docker), databases (MongoDB, SQL), and enterprise systems like SAP to deliver robust backend and full-stack solutions. I enjoy clean code, system design, and collaborating in Agile teams to solve real-world problems efficiently.

Experience

Blue Shield of California

Associate Applications Developer

July 2021 - June 2025 (4 years)

El Dorado Hills, California, United States

Automated internal web applications and business processes using PowerShell scripting and Oracle PL/SQL, improving efficiency and reducing manual workload.

Managed daily and nightly releases for production and internal updates, ensuring timely deployment of new features and improvements.

Collaborated effectively with cross-functional teams to deliver solutions and drive project success.

Entappia

Software Engineer

September 2019 - July 2021 (1 year 11 months)

United States

- Consumed RESTFUL API services as well as aided in development of REST API's using Mist API
- Integrated SAP Open Connectors with SAP Web IDE with AWS Dynamo DB and MySQL
- Researched, Designed and Implemented user friendly interfaces using JavaScript, HTML5, CSS3,

and Java

Los Angles County Housing Authority

QA Lead - Intern

August 2018 - May 2019 (10 months)

Greater Los Angeles Area

- Helped redesign the LA County Housing Authority website
 - Used C#, ASP.NET With Entity and Microsoft SQL Servers to implement a more user-friendly website
 - Used Black Box/White Box for data validation
-
